

HERE'S WHY OUR DECKS ARE BETTER

LAST LONGER!

ARE STRONGER!

HAVE BETTER POP!

WON'T GET SOGGY OVER TIME!

MADE IN THE USA...

Most of our decks are made in Wisconsin. Our factory is only a few hours from where the tree is cut down and cut into veneer. Our wood doesn't have to travel all over the world and go through damaging climate changes that will dry it out or make it brittle before it even is made into a deck.

BETTER WOOD...

1031 decks are made from hard-rock maple, grown in Wisconsin. Hard rock maple, grown in a cold climate like Wisconsin, is stronger due to the harsh winters. The tree has to be a lot tougher and stronger to survive, which makes it a perfect wood for a deck!

SUPERIOR GLUE...

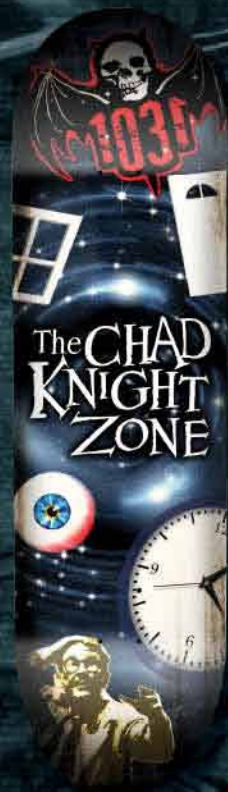

We use a polyvinyl glue with a catalyst. This glue makes our decks extra water resistant and adds a lot more strength to the deck. Most other decks are made from a normal wood glue that doesn't add the same strength or water resistance to a deck.

LOST HIGHWAY

"Lost Highway" is all about choosing the road less traveled, or digging and paving your own. The images I paint are a homage to that way of life. Going your own way gives you the freedom to decide, as well as the freedom to shoot yourself in the foot.

RED TAPE

is a classic 80's deck
with a shape and a
nose thats actually
smaller then the tail.
This deck also is drilled
for both classic and
modern trucks.

STATIC AGE

features machined
wheel wells and rails
channels along with a
square tail. Its a good
cross between an early
80's deck with a modern
concave and is drilled
for both classic and
modern trucks.

"RED TAPE"

"STATIC AGE"

9.5"x 32"

JASON ADAMS

"PUNK POINT"

is just that. A modern
shaped deck with a
pointy nose. With a
shape and artwork
designed by Jason!

SVITAK'S

"BLOCK-NOSE"

deck features a shape
that Bill Danforth and
Kristian designed. It's
a hybrid of a early 90's
and modern shape.

8.25"x 31.50"

BLOODSTAINS

Is a hybrid of a late 80's early 90's shape and a modern shape. Not only does it have a broader tail , but the nose also is slightly more narrow. Plus, the tail is actually a little longer than the nose.

"BLOODSTAINS"

9" x 32.125"

SMASH IT UP

A combination of an early 80's shape with the concave of a modern deck. The nose is longer than the tail but the tail is square and not rounded like a modern shape. The nose also is more narrow as well.
